

## REJECTED WITNESSES (ADDICTION)

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
ALBEE, GEORGE, Ph.D. University of Vermont, Burlington	Dr. Blau	Wall, Sirridge, Stone 1982 and 1983	Lacks clinical experience regarding smoking behavior and substance abuse.
BELGARD, DEWAIN New Orleans, Louisiana	Firestone	Batastini 1-13-87	Mr. Belgard does not consider himself qualified to render an opinion in the tobacco addiction area. Social worker at New Orleans Substance Abuse Clinic.
BENOWITZ, NEAL L., Ph.D. University of California, San Francisco	Literature		Research re low nicotine cigarettes supports conclusion of compensation; has published data claiming a nico- tine half-life of two hours. Plain- tiff's expert.
BLATNER, ADAM, Ph.D. San Antonio, Texas	RJR	RJR	Lacks drug abuse treatment experience, unimpressive qualifications.
BLOSE, IRVIN L., M.D. East Carolina University School of Medicine		Wall 3-18-82	Believes nicotine can cause physio- logical dependence; views inconsistent with industry position.
BOUTON, MARK, Ph.D. University of Vermont, Burlington	Dr. Albee		Lacks experience in substance abuse treatment and smoking behavior.
BOWER, ELI M., Ed.D. University of California, Berkley	Dr. Albee		Lacks clinical and research experience in substance abuse and smoking behavior.
BRADLEY, LARRY, Ph.D. Winston-Salem, North Carolina	Roehmer	Windham 1-3-86	Views smoking as an addiction; has other adverse opinions regarding smoking.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
BRADY, JOSEPH V., Ph.D. Baltimore, Maryland	Firestone		Researcher at Johns-Hopkins University in the Bio-behavioral Laboratory conducting studies of smoking behavior patterns and dependence liability of drugs (including nicotine and caffeine) funded by NIDA.
BRIGHTHAUPT, DAVID, Ph.D. San Jose, California	Dr. Chappel		
BROUGHAN, KATHY, Ph.D. Knoxville, Tennessee	Townsend [Hodges, Doughty]	Townsend	Is convinced that nicotine is an addictive substance. Personal friend of Mr. Townsend.
CALLAN, JOHN	RJR Local Counsel		
CANAVAN, DAVID I., M.D. New Jersey	Kenney [Kenney & Kearney]	Kenney 5-86	Views adverse to industry position.
CAPELL, MARTIN D., Ph.D. Detroit, Michigan	Johnston	O'Brien 12-15-86 (Telephone)	No known adverse views, but very little experience dealing with addicts, no treatment of smokers, no research experience or reading in area of smoking/nicotine. States he is not an expert in this area and refused to get involved.
COHAN, STANLEY L., M.D., Ph.D., Washington, D.C.	Gromel [Hunton and Williams]	Sirridge Gromel 6-11-86	Has strong negative views about cigarette smoking; emphasis on pharmacology of nicotine.
COLE, JONATHAN O., M.D. Harvard Medical School Boston, Massachusetts	Dr. Moskowitz	O'Brien 1-30-87 (Telephone)	Believes nicotine is an addictive substance and says he was addicted to nicotine gum.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
CROWLEY, THOMAS J., M.D. Denver, Colorado	Johnston		Classifies cigarette smoking/nicotine in same category as addictive drugs; believes there may be a genetic pre-disposition to abuse of drugs.
DAGHESTANI, AMIN, M.D. Loyola University, Chicago, Illinois	Walton [Winston & Strawn]	Walton 10-8-86	Has anti-smoking views and believes tobacco is addictive.
DAVIS, LAYTEN University of Kentucky	Firestone		No practical experience or educational background in drug abuse/addiction area. Administrative position at Tobacco and Health Research Institute.
DESJARDINS, J., M.D. Maplewood, New Jersey	Slattery [Norris, McLaughlin]		Testified for plaintiff in a 1976 cigar case [per Sirridge].
DIGREGORIO, G. JOHN, M.D., Ph.D. Hahnemann Medical College Philadelphia, Pennsylvania	Joern [SHB]		Has published in the literature his negative causation views.
DORUS, WALTER, M.D. Loyola University, Chicago, Illinois	Walton [Winston & Strawn]	Walton 9-30-86 (Telephone)	Not willing to meet for interview. Has published with Dr. Senay, whose views are adverse to industry position.
EHRENPRICE, SEYMOUR University of Chicago	Corr		Believes smoking is addictive.
EPSTEIN, LEON J., Ph.D., M.D. University of California, San Francisco	Dunne [Sedgwick, Deterf]	Wold, Healy [Sedgwick, Deterf]	Does not feel qualified as an expert in this area and refused to get involved.
EVANS, RICHARD I, Ph.D. University of Houston	Dr. Blau	Dr. Blau 2-81	Has anti-smoking views and believes cigarette smoking is an addiction.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
FOA, EDNA B., M.D. Temple University Philadelphia, PA	Drozdzowski [Brown & Connery]	Drozdzowski 2-18-86	Views adverse to industry position. Has published re diagnosis and treatment of obsessive-compulsives, agoraphobia and behavior therapy.
FORBES, WILLIAM F., Ph.D. University of Waterloo, Ontario	Shook, Hardy		Has been active in anti-smoking efforts; lacks clinical orientation.
FOXX, R. M., Ph.D. Anna, Illinois	Johnston		Has discussed smoking as a dependence disorder and believes there is a nicotine withdrawal syndrome.
FRANKS, CYRIL M., Ph.D. Rutgers University	Johnston		Views adverse to industry position.
FUCHS, EDWIN M., M.D. New Orleans Mental Health Center	Batastini [Adams & Reese]	Batastini 1-12-87 (Telephone)	No experience treating smokers; agrees with DSM-III classification of tobacco withdrawal; referral made to organization holding adverse views regarding addiction.
GALLANT, DONALD M., M.D. Tulane University	Batastini [Adams & Reese]	Batastini (Telephone)	Believes tobacco/nicotine is an addicting substance.
GARMON, ROBERT, M.D. Texas College of Osteopathic Medicine Fort Worth, Texas	Johnston		Views adverse to industry position.
GIAMBELLUCA, LAWRENCE J., M.D. Gretna, Louisiana	Firestone	Batastini, Gaye 1-15-87	Believes that tobacco is an addictive substance.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
GILBERT, RICHARD M., Ph.D. Toronto, Canada	Literature		Has anti-smoking views. Associated with Addiction Research Foundation; member of Task Force on Smoking (sub- mit Smoking and Health Report to Ontario Council of Health).
GLOVER, ELBERT D., Ph.D. Fort Worth, Texas	Literature		Has published a number of articles regarding smokeless tobacco in terms of adverse health effects, disapproval of advertising practices, and use by teen-agers.
GOODWIN, DONALD W., M.D. University of Kansas	Shook, Hardy	Wall 4-19-82	Views inconsistent with industry position. Says Jaffe is leading expert on the question of smoking and addiction.
GRABOWSKI, JOHN, M.D. University of Pennsylvania	Wilner		Researcher at NIDA on smoking ciga- rettes/nicotine. Concludes that nico- tine is a drug of abuse.
GRAY, J. A., Ph.D. London, England	RJR (Ed Jacobs)		
HALBERT, JOHN T., M.D. Beaumont, Texas	Dowell [Riensta, Dowell]	Dowell 5-19-86	Lacks experience in the substance abuse area.
HATTERER, LAWRENCE J., M.D. New York City	Sirridge, Wall		Believes cigarette smoking is addic- tive.
HENDERSON, ALLEN H., Ph.D. Fort Worth, Texas	Literature		Has co-authored articles with Glover regarding smokeless tobacco.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
HILL, SHIRLEY, Ph.D. Western Institute Clinic, Pittsburgh, Pennsylvania	O'Brien (Recommended by C. Schulz)	O'Brien (Telephone)	Believes there are addictive personalities. Familiar with nomenclature in addiction area. Formerly an animal researcher - current research interest is genetic link in alcoholism. Willing to consult.
HO, I. K. University of Mississippi Medical Center	RJR		
HOCHBERG, FRED H., M.D. Harvard Medical School	Woll [Sullivan & Worcester]	Wall, Woll 11-1-82	Not interested in working on issue of smoking habituation.
HUDZINSKI, LEONARD G., Ph.D. New Orleans, Louisiana	Batastini [Adams & Reese]	Batastini 11-10-86	Believes tobacco/nicotine is an addictive substance.
HUNTER, FRED M., M.D. Charity Hospital New Orleans, Louisiana	Firestone	Batastini 1-87 (Telephone)	Not willing to consult with tobacco companies. Specialty is gastroenterology.
HUTCHINSON, RONALD R., Ph.D. Augusta, Michigan	CTR, PM Funding of Research	Young [Jones, Day] 3-6-86	Has conducted research on effects of nicotine on aggression and the pharmacological effects of nicotine as a motivation for smoking; CTR and PM have funded some of this research.
JACOB, PEYTON, M.D. San Francisco General Hospital	Johnston		Co-author of study reporting compensation of nicotine intake after cutting down on smoking.
JARVIK, MURRAY E., M.D. University of California, Los Angeles	Literature	Wall, Johnston 4-26-85	Views adverse to industry position. Has authored NIDA research monographs and Chapter 15 of the 1979 Surgeon General's Report re cigarette smoking.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
KAVEY, RICHARD P., M.D. Syracuse, New York	Karalunas [Bond, Schoeneck]	Battaglia, Karalunas 10-7-86; Karalunas 12-12-86	Believes there may be certain symptoms following cessation of tobacco use; states that there might be a genetic component associated with cigarette smoking and that endorphins may play a part in the development of a dependency. Says the success rates for giving up alcohol, heroin and smoking are similar.
KIEV, ARI, M.D. Cornell University, New York	Shapiro [Sills, Beck]	Johnston 10-21-85	Remuneration policy. Has favorable views and adequate credentials in the drug abuse area. Has published primarily re prevention, therapy and other aspects of suicide and depression.
LAZARUS, RICHARD S., Ph.D. Columbia University, New York, New York	Dr. Albee		Professional experience limited to the academic setting; no experience in substance abuse or smoking. May have negative causation views.
LEVENTHAL, HOWARD, Ph.D. University of Wisconsin, Madison	Shook, Hardy		Uses terms such as "dependence" and "psychological addiction" in regard to smoking; adverse position regarding health issues.
LEVITT, EUGENE E., Ph.D. Indiana University School of Medicine	Congressional Testimony for Industry (1969)	Silfen	STIC witness - advertising. Former association with American Cancer Society regarding cessation; believes some people cannot quit.
LEVITT, LEROY, M.D. Chicago, Illinois	Walton [Winston & Strawn]	Walton 9-30-86 (Telephone)	Believes tobacco is psychologically and physiologically addictive.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
MACALUSO, PETER M., M.D. Tallahassee, Florida	Drozowski [Brown & Connery]; Advertising	Windham 2-18-86 (Telephone)	Certified in "Addictionology." Views generally adverse, i.e., genetic pre-disposition for addictive disease, smoking is an addiction.
MARTIN, WILLIAM R., M.D. University of Kentucky, Lexington	Johnston		Neuropharmacological Researcher and Director of NIDA Addiction Research Center in Lexington from 1963 to 1977. Research in the area of receptor binding in animals and the role of endorphins in effects of nicotine.
MELLO, NANCY K., Ph.D. Harvard Medical School	Shook, Hardy	Shook, Hardy	Colleague and wife of Jack Mendelson (rejected witness).
MENDELSON, JACK H., M.D. Harvard Medical School	Shook, Hardy	Wall, Sirridge, O'Neill 7-14-82  Wall, Sirridge, Stone 11-10-82	Views smoking as "drug use" and as involving dependence. Associated with NIDA. Submitted research proposal to TI in 1981 re hormone release and reinforcing properties of smoking.
MOSKOWITZ, HERBERT K., Ph.D. University of California, Los Angeles	Wright [Lillick, McHose]	O'Brien 12-10-86 (Telephone)	Does not feel qualified to testify in the area of addiction. Has conducted research on the effects of nicotine on behavior and skills performance.
MUNDY, LAWRENCE R., M.D. Denville, New Jersey	Slattery [Norris, McLaughlin]	O'Brien 1-22-87 (Telephone)	Agrees with DSM-III classification of tobacco dependence. States that he was personally addicted to cigarettes and experienced withdrawal symptoms following cessation of use. Believes that nicotine has some of the same properties as cocaine.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
MURPHY, DAVID, M.D. Culver City, California	John Nyham (RJR)		
MUSTY, RICHARD E., Ph.D. University of Vermont, Burlington	Dr. Albee	Shook, Hardy	Lacks clinical experience in the area of smoking behavior and substance abuse.
NAHAS, GABRIEL, M.D. New York City		Sirridge 4-15-85	Views inconsistent with industry position.
NATHAN, PETER, Ph.D. Rutgers University	Dr. Blau	Sirridge 4-20-83	Views adverse to industry position.
NEWTON, JOHN J., M.D. Toledo, Ohio	Hackett [Shumaker, Loop]		Adverse views regarding tobacco and smoking cigarettes.
O'BRIEN, CHARLES P., M.D., Ph.D. University of Pennsylvania, Philadelphia	Shook, Hardy	Drozdzowski	Believes that smoking is an addiction. In one study, he reports that it was more difficult for subjects to deal with cigarette deprivation than with alcohol deprivation.
OKUN, RONALD, M.D. Los Angeles, California	Dunne [Sedgwick, Detert]		Remuneration policy. Director of Clinical Pharmacology at Cedars-Sinai Medical Center.
OLSON, KENNETH J., Ph.D. Phoenix, Arizona	Walton [Winston & Strawn]	L. Johnston [Winston & Strawn] 12-12-86 (Telephone)	Believes there are addictive person-alities; does not think that anyone can quit smoking.
PEELE, STANTON, Ph.D. Morristown, New Jersey	Literature	Sirridge 11-5-84	Some views are inconsistent with those of the industry. Calls smoking an addiction, but people can quit. Probably not useful to either defense or plaintiff.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
PICKENS, ROY, Ph.D. University of Minnesota	Dr. Meehl		Accepts NIDA's position regarding smoking as a form of substance abuse.
PINNEY, JOHN Harvard University	Poul [Wolf, Block]		Director of Office on Smoking and Health.
POMERLEAU, OVIDE, Ph.D. University of Connecticut School of Medicine, Farmington	Literature		Has adverse views via published smoking/nicotine research (i.e., reinforcement, nicotine regulation, similarities to heroin, alcohol, etc.).
PRUE, DONALD M., Ph.D. New York	Sirridge; Sheffler		Recently became affiliated with the American Health Foundation.
REYNOLDS, WILLIAM A., M.D. Missoula, Montana	Jones [Garlington, Lohn]		Specialty is Internal Medicine, not Psychiatry or Addiction.
RHODES, ROBERT, M.D. Kansas City, Kansas	Dr. Rogers		
ROACHE, JOHN D., Ph.D. Baltimore, Maryland	O'Brien		Researcher at Behavioral Biology Laboratory at Johns-Hopkins University School of Medicine; conducts research and publishes in NIDA publications with Dr. Griffiths.
ROBINSON, J. C., Ph.D. University of Waterloo, Ontario	Shook, Hardy		Has been active in anti-smoking efforts. Lacks clinical experience in substance abuse.
RODRIGUEZ, FRANCISCO J., M.D. Texas	Firestone	Firestone 7-31-86	Not recommended.
ROEHRICH, HERBERT, M.D. Fair Oaks Hospital Summit, New Jersey	O'Brien	O'Brien 12-18-86 (Telephone)	Believes tobacco is an addictive substance; negative views regarding withdrawal from cigarettes and causation.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
ROGERS, JACK M., M.D. Winston-Salem, North Carolina	Barnhill	Windham	Lacks clinical experience in substance abuse and smoking cessation treatment; viable only in North or South Carolina.
ROGERS, WALTER R., Ph.D. Southwest Research Institute, San Antonio, Texas	Shook, Hardy	Dr. Blau (Written)	Research tends to emphasize the importance of nicotine; dependent on government funding; lacks clinical experience.
ROSE, JED, Ph.D. Brentwood, California	Windham, M. Root		
ROSECRANS, JOHN A., Ph.D. Medical College of Virginia, Richmond	Shook, Hardy	Shinn, Wall 1976-77	Believes nicotine is an addictive substance and the primary motivation for smoking; some research funded by CTR in the mid-1970's; has published under the auspices of NIDA.
RUPPEL, RODNEY W., Ph.D. Beaumont, Texas	Dowell [Riensta, Dowell]	Dowell	Dowell indicates witness cannot help us.
SARBIN, THEODORE R., Ph.D. University of California, Santa Cruz	Dr. Albee		Views smoking and heroin addiction as involving similar psychological processes; has anti-smoking attitude.
SCHACHTER, STANLEY, Ph.D. Columbia University New York City	Literature, Industry contacts		Views are inconsistent with industry position. Has conducted research on regulation of blood nicotine levels in smokers and says that heavy smokers are addicted to nicotine. PM funded research 1972 to 1977. CTR grants, also.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
SCHECHTER, MARTIN D., Ph.D. Northeastern Ohio University	Shook, Hardy		Conducts research pertaining to pharmacological (including CNS) effects of nicotine in animals; much of this work is co-authored with Dr. Rosecrans.
SCHNOLL, SIDNEY, M.D., Ph.D. Northwestern Memorial Hospital, Chicago, Illinois	Walton [Winston & Strawn]	Walton 10-31-86	Believes that some persons can be addicted to tobacco and that there is an addictive personality.
SCHULZ, S. CHARLES, M.D. Washington, D.C.	Shook, Hardy	Sirridge 5-1-84	Recently accepted position with National Institute of Mental Health (schizophrenic research branch).
SCHUSTER, CHARLES R., Ph.D. Washington, D.C.	Drozdzowski [Brown & Connery]	Johnston, Drozdzowski 10-85	Recent appointment as director of the National Institute on Drug Abuse.
SCHWARTZ, COLIN J., M.D. San Antonio, Texas	Barnhill		Views cigarette smoking as a form of drug self-administration, analogous to heroin and cocaine use; accepts the DSM-III tobacco-related diagnoses.
SENAY, EDWARD C., M.D. Chicago, Illinois	Wall; Walton		Testified at smokeless tobacco hearings regarding addiction - said the use of smokeless tobacco is clearly an example of nicotine dependence. Has published extensively regarding theories, models, and treatment of addiction; has edited various books containing some contributors adverse views to industry position on smoking and addiction.
SHAFFER, HOWARD, Ph.D. Harvard Medical School	Jacob, Medinger, Finnegan		

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
SHIPLEY, ROBERT H., Ph.D. Durham, North Carolina	Windham		
SIEGEL, RONALD K., Ph.D. University of California, Los Angeles	Johnston	Johnston	Pharmacological research focuses on self-administration studies of drugs, including nicotine. Has published with Drs. Gritz and Jarvik, both anti-smoking.
SINGER, GEORGE, Ph.D. LaTrobe University, Victoria, Australia	Dr. Ungerleider		Several research papers reporting nicotine self-administration in animals.
SMITH, DAVID E., M.D. San Francisco, California	Dr. Stubble- bine		Includes "cigarette dependence" as one of the addictive diseases in keynote address to an addictionology society. Believes there is a genetic predisposition to addictive disease. Substantial clinical and research experience in drug abuse treatment.
SPIEGEL, DAVID, M.D. Stanford University	O'Brien	O'Brien 12-10-86, 1-5-87 (Telephone)	Not willing to testify on behalf of tobacco industry; has negative causation views. Leading researcher in the field of hypnosis.
SPIEGEL, HERBERT, M.D. Columbia Presbyterian Medical Center New York City	Newman		Has anti-smoking views. Considerable clinical and research experience regarding hypnosis for smoking, overeating, etc.
SPIELBERGER, CHARLES D., Ph.D. University of South Florida, Tampa	CTR		Involved for a number of years in a CTR Special Project regarding verifying the nature of personality variables which might determine initiation and maintenance of smoking behavior. Congressional testimony in hearings on cigarette labeling in 1982 and 1983.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
STEPNEY, ROBERT, M.A., M.Sc. University of Cambridge, England	Literature		Views inconsistent with industry position. CTR-funded research and BAT contacts.
STRAATMEYER, A. J., Ph.D. Pasadena, California	Dr. Albee		Authored manuscript pertaining to hypothesis and the cessation of smoking which revealed a tendency toward anti-smoking views and references to "addiction to smoking."
STRETCHER, VICTOR J., Ph.D., MPH Chapel Hill, North Carolina	Windham		
STRINGER, CHRISTOPHER, M.D. Syracuse, New York	Karalunas [Bond, Schoeneck]	Karalunas (Telephone)	Believes that cigarette smoking is an addiction.
SZASZ, THOMAS S., M.D. State University of New York Syracuse, New York	Shook, Hardy	Wall, Johnston 2-12-85  Sirridge, Johnston 4-17-85	Some views are adverse to industry position. Strong proponent of anti-labelling in area of mental illness.
TAYLOR, LAWRENCE, M.D. Corpus Christi, Texas	Barger [Hunt, Hermansen]	Barger	Has been retained by plaintiff in Coulter. Believes approximately 5% of smokers are addicted and cannot quit.
TEITELBAUM, DANIEL T., M.D. Denver, Colorado	Johnston		Specialty is clinical toxicology.
TENNANT, FOREST S., M.D. University of California, Los Angeles	Jacob, Medinger		Has strong adverse opinions regarding smoking as an addiction and disease causation.

NAME AND LOCATION	IDENTIFIED BY (DATE)	CONTACTED BY (DATE)	REASON FOR REJECTION/COMMENTS
VANCE, MICHAEL V., M.D. Phoenix, Arizona	Grant [O'Connor, Cavanagh]	Grossi, Firestone, Grant 3-11-86	Has anti-smoking views.
VAN DEN NOORT, STANLEY, M.D. University of California, Irvine	Sirridge		No research experience in smoking behavior or drug abuse; administrative role in governmental agencies on alcoholism.
VILENSKY, WILLIAM, D.O. Camden, New Jersey	Drozdowski [Brown & Connery]	Drozdowski, Blake 9-16-85	Believes smoking/nicotine is an addiction.
WEISS, KENNETH, M.D. New Jersey	Drozdowski [Brown & Connery]		Views adverse to industry position.
WILLIAMS, ROBERT K., M.D. Medical College of Virginia	Dr. Foster		Background search has revealed no indication of research or clinical experience relating to substance abuse.
WILSON, G. TERENCE, Ph.D. Rutgers University	Johnston		Refers to smoking as addictive in published materials.
WINOKUR, GEORGE, M.D. University of Iowa	Wall	Wall 1982; O'Brien (Telephone)	Believes smoking may be physiologically and psychologically addictive. Established policy, as head of the department of psychiatry, that does not allow departmental members to engage in outside consultation work.
WOOD, FRANK, Ph.D. Winston-Salem, North Carolina	Roehmer (RJR)		

CONFIDENTIALATTORNEY WORK PRODUCT

<u>NAME AND LOCATION</u>	<u>IDENTIFIED BY (DATE)</u>	<u>CONTACTED BY (DATE)</u>	<u>REASON FOR REJECTION/COMMENTS</u>
ZINBERG, NORMAN, M.D. Harvard Medical School	Simonds [Goodwin, Proctor]		Theories regarding "controlled" drug use, developing dependency without getting "high" and addictive personality preclude his usefulness as an addiction expert.

2025005275
